

are you being served

staff caterers drinks hire

And most importantly Lochie and I would like to say a massive thank you to both you and your team. We are so impressed with everything you did for our wedding. You and your team made the wedding day run perfectly. And we can't sing enough praises for Chad and his team. They were very very professional and Chad took charge and made things happen. He was just a dream.

We were at the Rolls Royce Presentation Dinner last Sunday night. On behalf of my husband firstly the dinner and the venue were first class - but, it was the staff on the night that made the night exceptional. We had our 3 year old daughter Katie with us who was so very excited to be going.

On arrival, a lovely lady identified herself and advised she would be looking after our table upstairs with Katie and anything we needed we only had to ask. When we got to our table 14 - and our drinks server was again ever so helpful with the little things and always with a 10 kilowatt smile - even spotting that Katie liked ice and brought her over a glass of ice to munch on. Ever member of your team that night we came across went out of their way to not only make us welcome, but make Katie feel special.... please, if you could at the very least pass on our heartfelt thanks for such warm attention, we'd be very grateful.

The serving staff from this morning were wonderful, they used their initiative, were very friendly to the clients and a lot of people commented on how good their service was.

The girls were both sensational on Saturday as always, thank you so much!

Your staff, led by Stuart provided great service, great attitude, everything was done with a smile! The cosmopolitans and cowboys were a huge hit, (many would have had a headache on Sunday!) it made Jamie and my night more enjoyable to know that everyone was well looked after with food and drinks. So please pass on our thanks again to Stuart and all the team members (also thank you to you for your suggestions with lantern lights and tea lights, I thought it all looked great and everyone seemed to enjoy the lanterns.)

I was very pleased with the service you provided - your staff were excellent and the end result was a great evening with no problems!

As the mother of the bride I have to say that your team ensured all the guests including me! had a great time and the young lady who was the team leader was absolutely fantastic, she took control of our crazy family and just made everything happen - well done and thank you !

As a caterer I really want to tell you how fantastic the staff were on Sat nite , in fact Catherine , is one of the hardest and most professional people I have worked with in a long time, it made the whole night such a pleasure - please thank her and Chris for their wonderful efforts.

Just a brief note to thank you both for your efforts in organising last night's event. The feedback from the Vice Chancellor and others present is that they thoroughly enjoyed it and appreciated the work and attention to detail which had been applied "behind the scenes" to make the event so memorable.

I have been meaning to write to you to let you know what a fabulous job your staff did on Wed night, they were all helpful, professional and efficient, and I would highly recommend Are You Being Served to anyone else I deal with in the events industry.
